Indian Students: Are you affected by Home Office action?

On 24 June 24 2014, the Home Office took action against three universities and 57 private colleges which will impact their ability to recruit new international students.

Universities and Colleges in the UK who want to recruit international students from outside the European Economic Area who require a Tier 4 visa, must have a Tier 4 license.

It will also impact the ability of some students to extend their visas and may impact the ability of the university or college to continue teaching international students in the future. It may also impact your current visa and course of study.

Please note, the institutions currently remain able to teach international students, so all international students should be able to continue their courses provided they have leave to do so.

International Students Travelling in and out of the UK

We have been made aware of more rigorous checks at the UK boarders for International Students. As you will know from your Tier 4 visa or Student Visitor Visa information, if you are an international student there are a number of documents you need to have with you when passing through immigration control.

To find out more about what you need to ensure a smooth trip through UK border control, please follow this link: http://www.ukcisa.org.uk/International-Students/When-you-arrive/Immigration-and-customs/

UKCISA say: "When you enter, or re-enter, the UK with Tier 4 immigration permission you will have to pass through immigration control. You will probably be asked questions by a Border Force Officer (BFO)

The BFO may also ask to see documents to confirm that you still intend to use, and are still able to meet the requirements of, your immigration permission.

You must be able to show these documents to the BFO, especially if you are planning to study at a university or college which has recently had its Tier 4 sponsor licence suspended.

Please read our information on 'Immigration and customs' for when you arrive here for guidance on what you should bring in your hand luggage."

The Home Office's Tier 4 Guidance (p. 152 - 156) also outlines the circumstances you can be refused entry at the border which will help you to understand your rights when entering the UK with a Tier 4 visa.

There have been cases of students having their visas cancelled and passports seized upon arrival due to insufficient documents or their initial test centres for the IELTS tests, being compromised.

Please be aware that if you have falsified documents, there is very little that can be done to help you.

If you are at risk of being suspected of having falsified documents, please make sure you are prepared with more than sufficient proof to contest this. To do this please enquire and find out if your initial test centre was compromised.

The UKBA has full rights to invalidate your visa on site based on suspicions if you do not provide evidence to contest.

If you are stopped at immigration and your visa is invalidated, you have recourse to an appeal and you have 10 working days to file this appeal, either independently or through an immigration solicitor.
